ULTIMATE VISION (NORTH STAR 2035)

"To be the default global technological infrastructure for sustainable water management—treating more than 1% of the world's contaminated freshwater and increasing global aquaculture efficiency by over 30%, while demonstrating that environmental impact and financial profitability are mutually reinforcing."

STRATEGIC IMPACT OBJECTIVES (SMART)

Environmental Impact (2035)

- **Water Treated:** 1.2 trillion liters (0.5% of global contaminated freshwater)
- **Pollutants Removed:** 500K tons
- **Restored Ecosystems:** 250 water bodies
- **CO₂ Avoided:** 1.5M tons of CO₂e
- **Protected Biodiversity:** 120 endangered species

Economic Impact (2035)

- **Annual Revenue:** \$360M+ (Medium Scenario)
- **Company Valuation:** \$3.5B+ (Pre-IPO)
- **Client Savings:** \$10B+ accumulated in efficiencies
- **Direct Jobs:** 1,300+ (5,500 in High-Growth Scenario)
- **Indirect Jobs:** 5x multiplier of direct employment

Social Impact (2035)

- **Beneficiary Communities:** 500+ municipalities
 - **Clean Water Access:** 1M+ people indirectly impacted
 - **Professional Training:** 10,000+ individuals trained in new technologies
 - **SDG Contributions:** Goals 6, 13, 14, 9, and 8 (Clean Water, Climate Action, Life Below Water, Industry/Innovation, Decent Work)
-

STRATEGIC ROADMAP 2026–2035

ALPHA PHASE: FOUNDATION & VALIDATION (2026)

Objective: Demonstrate technical-commercial viability and establish the operational base.

- **Q1 2026: "Total Validation"**
 - **Technical Goal:** 25%+ efficiency across 3 distinct environments.
 - **Commercial Goal:** 15 qualified leads in the shrimp sector.
 - **Operational Goal:** 5-model framework documented and operational.
 - **Critical Milestone:** Independent technical validation report.
 - **Q2 2026: "Initial Capitalization"**
 - **Financial Goal:** \$250K–\$500K seed capital closed.
 - **Product Goal:** Digital Kit v1.0 for the shrimp sector.
 - **Team Goal:** 15 key hires onboarded.
 - **Critical Milestone:** 3 confirmed pilots in Uruguay.
 - **Q3 2026: "Initial Scaling"**
 - **Client Goal:** 5+ paying clients in Uruguay.
 - **Tech Goal:** Predictive system with 85%+ accuracy.
 - **Process Goal:** Optimized multi-country operating model.
 - **Critical Milestone:** Prediction validated in a real-world environment.
 - **Q4 2026: "Product-Market Fit"**
 - **Commercial Goal:** 10+ active SaaS clients, \$50K+ MRR.
 - **Client Goal:** NPS >50, Churn <5%.
 - **Operational Goal:** Documented replicable framework.
 - **Critical Milestone:** CAC payback <12 months.
-

BETA PHASE: REGIONAL SCALING (2027–2029)

Objective: Dominate Latin America and prepare for global expansion.

- **2027: "Southern Cone Conquest"**
 - **Expansion:** Uruguay, Paraguay, Chile, Peru.
 - **Revenue:** \$3.5M+ (Medium Scenario).
 - **Team:** 40 people.
 - **Tech:** Advanced ML optimization, 50K+ data measurements.

- **Critical Milestone:** Series A Round (\$5M–\$8M).
- **2028: "Latin American Hegemony"**
 - **Expansion:** +Colombia, Ecuador, Brazil (South).
 - **Revenue:** \$12M+ | **Clients:** 350+.
 - **Products:** 3 product lines (SaaS, Data Products, Hardware).
 - **Critical Milestone:** EBITDA profitability achieved.
- **2029: "The Transatlantic Leap"**
 - **Expansion:** Mexico, Central America, Spain.
 - **Revenue:** \$28.5M+ | **Valuation:** \$200M+.
 - **Tech:** Deep learning, complex simulations.
 - **Critical Milestone:** Series B Round (\$20M–\$35M).

GAMMA PHASE: GLOBALIZATION (2030–2032)

Objective: Position as the global leader in water-tech.

- **2030: "Entry into Mature Markets"**
 - **Expansion:** USA (California, Florida), Southeast Asia.
 - **Revenue:** \$52M+ | **Countries:** 14+.
 - **Operations:** 250 employees.
 - **Critical Milestone:** First enterprise contract >\$1M.
 - **2031: "Global Consolidation"**
 - **Expansion:** India, Australia, Middle East.
 - **Revenue:** \$85M+ | **Clients:** 2,500+.
 - **Innovation:** 120+ patents, 200+ scientific papers.
 - **Critical Milestone:** IPO Preparation.
 - **2032: "Market Maturity"**
 - **Expansion:** Africa, China.
 - **Revenue:** \$130M+ | **Valuation:** \$1.1B+ (Unicorn status).
 - **Impact:** 0.2% of global freshwater treated.
 - **Critical Milestone:** Decision: IPO vs. Remaining Private.
-

DELTA PHASE: GLOBAL LEADERSHIP (2033–2035)

Objective: Establish global standards and a lasting legacy.

- **2033: "Establishing Critical Infrastructure"**
 - **Revenue:** \$190M+ | **Adoption:** 6,000+ clients.
 - **Standardization:** Technology adopted as the sectoral reference.
 - **Critical Milestone:** Successful IPO (Nasdaq: CLWT).
- **2034: "Ecosystem Expansion"**
 - **Revenue:** \$265M+ | **Partners:** 100+ tech partners.
 - **Innovation:** Generative AI, autonomous systems.
 - **Critical Milestone:** First strategic acquisition of a complementary firm.
- **2035: "Legacy and Reinvention"**
 - **Revenue:** \$360M+ (Medium) to \$2.2B+ (High).
 - **Impact:** 1%+ of contaminated freshwater treated globally.
 - **Legacy:** Clear Legacy Foundation for water research.
 - **Critical Milestone:** Transition to a Climate-Tech Holding Company.

STRATEGIC GROWTH PILLARS

1. TECHNOLOGICAL PILLAR: "Layered Innovation"

Strategy: Defensive Intellectual Property (IP) + Controlled Open Innovation.

Technology Layers:

- **Layer 1 (Core):** Patented **Dörman Method**.
- **Layer 2 (Data):** Proprietary optimization algorithms.
- **Layer 3 (Platform):** Scalable multi-tenant SaaS.
- **Layer 4 (Ecosystem):** Open APIs for third-party developers.
- **Layer 5 (Autonomous):** Autonomous AI systems.

R&D Investment:

- **2026–2028:** 40% of capital raised.
- **2029–2032:** 25% of total revenue.
- **2033+:** 15% of total revenue.

Key Technological Metrics:

- **Patents:** 8 → 120+ (2035).
 - **Scientific Papers:** 2 → 200+ (2035).
 - **Prediction Accuracy:** 70% → 95%+ (2035).
 - **Response Time:** 24 hours → Seconds (2035).
-

2. COMMERCIAL PILLAR: "Land and Expand Multi-vertical"

Strategy: Deep niche penetration prior to horizontal expansion.

Sequential Markets:

- **2026–2027:** Industrial Shrimp Farming (Uruguay, Chile).
- **2028–2029:** General Aquaculture + Municipalities.
- **2030–2031:** Precision Agriculture + Extractive Industries.
- **2032+:** National Water Infrastructure + Utilities.

Evolutionary Revenue Models:

- **Phase 1 (2026–2028):** SaaS + Premium Consulting.
- **Phase 2 (2029–2031):** Data Products + Hardware + Licensing.
- **Phase 3 (2032+):** Marketplace + Commissions + Financing.

Key Commercial Metrics:

- **CAC (Customer Acquisition Cost):** \$500 → \$100 (2035).
 - **LTV:CAC Ratio:** 2:1 → 8:1 (2035).
 - **Virality Coefficient:** 0.1 → 0.8 (2035).
 - **NPS (Net Promoter Score):** 40 → 70+ (2035).
-

3. OPERATIONAL PILLAR: "Scalable Excellence"

Strategy: Progressive automation + a culture of excellence.

Operating Model by Phase:

- **2026–2027:** Manual / Semi-automated processes.
- **2028–2030:** 60% automation; full systems integration.
- **2031–2033:** Unified platform; open APIs.
- **2034+:** Complete digital ecosystem.

Operational Metrics:

- **Platform Availability:** 95% → 99.99% (2035).
 - **Feature Deployment Time:** 30 days → 1 day (2035).
 - **Process Automation:** 20% → 95%+ (2035).
 - **Employee Satisfaction:** eNPS 30 → 70+ (2035).
-

4. HUMAN PILLAR: "Exponential Talent"

Strategy: Attract, develop, and retain top-tier global talent.

Team Evolution:

- **2026:** 30 people (80% Technical).
- **2028:** 80 people (60% Tech, 20% Sales).
- **2030:** 250 people (40% Tech, 30% Sales, 20% Ops).
- **2035:** 1,300+ people (Balanced Organization).

Key Programs:

- **Clear Academy:** Internal training and development.
- **Scientist-in-Residence:** Academic rotation and research.
- **Global Rotation Program:** International mobility.
- **Equity for All:** Employee stock options/ownership at all levels.

FINANCIAL AND CAPITAL STRATEGY

Capitalization Philosophy:

"Sufficient capital for optimal speed, not maximum speed."

Planned Funding Rounds

Round	Year	Amount	Pre-Money Valuation	Primary Use of Funds
Pre-Seed	2026	\$250K	\$1M	Technical validation + MVP
Seed	2026	\$1M	\$4M	Initial team + first clients
Series A	2027	\$6M	\$24M	Regional expansion + R&D
Series B	2029	\$25M	\$100M	Global leap + acquisitions
Series C	2031	\$60M	\$400M	IPO preparation + ecosystem
IPO	2033	\$200M	\$1.7B+	Liquidity + aggressive growth

Financial Discipline

- **Controlled Burn Rate:** Never exceeding 70% of the projected plan.
- **Minimum Runway:** Always maintain a visible runway of 18+ months.
- **Path to Profitability:** Achieve positive EBITDA by 2028.
- **Reinvestment:** Reinvest 60%+ of EBITDA back into growth initiatives.

GEOGRAPHIC EXPANSION STRATEGY

Phase 1: Latin American Dominance (2026–2029)

- **2026: Uruguay** (HQ, Pilot Market)
- **2027: Paraguay, Chile, Peru** (Direct Team)
- **2028: Colombia, Ecuador, Southern Brazil** (Strategic Partners)
- **2029: Mexico, Central America, Spain** (Joint Ventures)

Phase 2: Global Leap (2030–2032)

- **2030: USA** (CA, FL), **Southeast Asia** (TH, VN)
- **2031: India, Australia, Middle East**
- **2032: Africa** (SA, KE), **China**

Phase 3: Global Consolidation (2033–2035)

- **2033:** 26 operational countries
- **2035:** 35+ countries direct; 80+ via partners

Expansion Models

To manage such a rapid global rollout, Clear Legacy International utilizes four distinct market-entry strategies:

Model	Application	Focus
Direct (Core)	Strategic Markets (10 Countries)	Full control, high margin, internal team.
Partners (Scale)	Local Distributors (40 Countries)	Rapid coverage, local market expertise.
Franchise (Reach)	Licensed Operating Model (30 Countries)	Low-capital intensity, standardized tech.
JV (Complex)	Equity-Based Alliances	High-entry-barrier markets (China, India, EU).

Strategic Insight for the Roadmap:

Starting with **Uruguay** as the "HQ and Pilot Market" in 2026 allows for high-speed technical iteration before entering the high-volume markets of **Southeast Asia** and **China**. The use of **Joint Ventures (JV)** for complex markets like China is a professional standard to mitigate regulatory risks.

CRITICAL RISK MANAGEMENT

First-Order Risks

- **Insufficient Technical Validation**
 - **Mitigation:** 3 independent validation phases.
 - **Plan B:** Specialized consultancy pivot if efficiency falls below 20%.
- **Regulatory Rejection**
 - **Mitigation:** "Compliance-by-design" starting from Day 1.
 - **Diversification:** Operating across multiple regulatory jurisdictions.
- **Entry of Major Competitors**
 - **Mitigation:** Robust IP (Intellectual Property) + execution speed.
 - **Defense:** Deep vertical specialization.
- **Limited Access to Capital**
 - **Mitigation:** Early profitability + multiple funding sources.
 - **Resilience:** Lean operations viable with \$500K/year.
- **Lack of Specialized Talent**
 - **Mitigation:** Internal training programs + academic alliances.
 - **Attraction:** Generous equity packages + a clear sense of purpose.

Early Warning System (EWS)

-  **RED:** Burn Rate > 140% of plan | Churn > 10% | Efficiency < 20%
-  **YELLOW:** CAC > 130% of target | Runway < 9 months | NPS < 40
-  **GREEN:** All metrics within target ranges.

KEY SUCCESS METRICS (KSMs)

Impact Metrics

- **Liters of Treated Water:** 1M → 1.2T (2035)
 - **Improved Client Efficiency:** 25% → 30%+ (2035)
 - **Jobs Created:** 10 → 5,500 (2035, High-Growth Scenario)
 - **SDG Contribution:** 3 → 5+ SDGs (2035)
-

Business Metrics

- **Annual Revenue:** \$0.8M → \$360M+ (2035)
 - **EBITDA Margin:** -35% → 38% (2035)
 - **Active Clients:** 35 → 12,000 (2035)
 - **Valuation:** \$12M → \$3.5B+ (2035)
-

Product Metrics

- **Prediction Accuracy:** 70% → 95%+ (2035)
 - **Uptime/Availability:** 95% → 99.99% (2035)
 - **NPS (Net Promoter Score):** >50 → >70 (2035)
 - **Product Adoption:** 60% → 90%+ (2035)
-

Team Metrics

- **eNPS (Employee Net Promoter Score):** >30 → >70 (2035)
- **Key Talent Retention:** >90% annually
- **Leadership Diversity:** 40%+ Women, 30%+ Independent Directors
- **Productivity:** Revenue per Employee \$80K → \$275K+ (2035)

DECISION POINTS

2026 Q2: Commercial Go/No-Go

- **Criterion:** Validated efficiency $\geq 22\%$ + 15 qualified leads.
- **Decision:** Proceed with the original plan vs. pivot to a specialized consultancy model.

2027 Q4: International Expansion

- **Criterion:** 10+ clients in Uruguay, NPS > 50 , CAC payback period < 12 months.
- **Decision:** Expand to Chile/Paraguay vs. deepening market penetration in Uruguay.

2029 Q2: Global Readiness

- **Criterion:** Profitability achieved, Series B funding round closed.
- **Decision:** Leap to Spain/Mexico vs. continued consolidation in South America.

2032 Q4: IPO Decision

- **Criterion:** \$130M+ in revenue, EBITDA 35%+, favorable market conditions.
- **Decision:** Launch IPO in 2033 vs. remaining private and issuing dividends.

GOVERNANCE & REVIEW SYSTEM

Decision Cycles

- **Daily:** Operational Stand-up.
 - **Weekly:** Leadership Metrics Review.
 - **Monthly:** Executive Board Meeting.
 - **Quarterly:** Strategic Review + Plan Adjustments.
 - **Annual:** High-Plan Revision + Budgeting.
-

Strategic Committees

- **Executive Committee:** Daily operational decisions.
 - **Board of Directors:** Corporate governance and oversight.
 - **Scientific Committee:** R&D and technical direction.
 - **Impact Committee:** ESG (Environmental, Social, and Governance) metrics supervision.
 - **Expansion Committee:** Geographic and market-entry decisions.
-

Transparency & Reporting

- **Internal:** Real-time dashboard for Key Success Metrics (KSMs).
- **Investors:** Detailed quarterly performance reports.
- **Public:** Verified Annual ESG Impact Report.
- **Market:** Proactive communication of relevant milestones and breakthroughs.

FOUNDATIONAL CULTURE & VALUES

Core Values

- **Measurable Impact:** Everything we do must generate a quantifiable impact.
 - **Scientific Excellence:** Decisions based on data, not opinions.
 - **Speed with Precision:** Moving fast while validating rigorously.
 - **Integrated Sustainability:** Triple Bottom Line approach (**People, Planet, Profit**).
 - **Constant Learning:** A culture of experimentation and continuous improvement.
-

Cultural Rituals

- **Monday Metrics:** Weekly review of all team metrics to ensure alignment.
- **Science Friday:** Open scientific talks and knowledge-sharing sessions.
- **Impact Day:** Monthly volunteering in local water-related projects.
- **Quarterly Reflection:** A full-team strategic retrospective.
- **Annual Reset:** Cultural review and adjustment of core values.

TIERED CONTINGENCY PLANS

Level 1: 20% Slowdown

- **Hiring Freeze:** Suspend all non-essential recruitment.
- **Vendor Renegotiation:** Re-evaluate and renegotiate contracts with key suppliers.
- **Runway Extension:** Implement measures to extend cash runway by 6 months.

Level 2: 40% Slowdown

- **Workforce Reduction:** 25% team reduction (Last-In, First-Out basis).
- **Non-Core Outsourcing:** Outsource non-essential functions to reduce fixed costs.
- **Lean Model Pivot:** Shift to a lighter operational model (Consulting + Basic SaaS).

Level 3: Severe Crisis

- **Skeleton Crew:** Reduce staff to 10 core personnel.
- **IP Maintenance:** Narrow focus strictly to IP preservation and servicing existing clients.
- **Strategic Acquisition:** Actively seek a strategic buyer or merger.

Level 4: Survival Mode

- **IP Licensing:** License intellectual property to third parties to generate passive revenue.
- **Orderly Wind-down:** Execute a structured liquidation/shutdown of operations.
- **Knowledge Preservation:** Secure and archive all research and data for a future restart.

FINAL VISION: THE LEGACY

By 2035, **Clear Legacy International** will be more than just a successful company; it will be:

- **A Global Standard:** Technology adopted as the definitive reference in water resource management.
- **A Case Study:** A practical demonstration that environmental impact and profitability are mutually reinforcing.
- **A Platform:** An ecosystem that enables and empowers dozens of complementary enterprises.
- **A School:** A training ground for the next generation of leaders in climate-tech.
- **A Legacy:** A lasting contribution to the sustainability of our planet.

Clear Legacy International will not be measured solely by its market valuation, but by the liters of clean water provided, the ecosystems restored, and the communities transformed.
